

THE SUPPLY CHAIN SUSTAINABILITY SCHOOL

Costain have committed to improving sustainability throughout our business.

The supply chain sustainability school enables you to carry out a self-assessment and provides e-learning modules, workshops, advice and support in the development of your credentials in key sustainability areas such as diversity, biodiversity, waste, environmental management etc.

- ◆ By the end of 2016 all strategic partners to achieve silver status
- ◆ By the end of 2017 all preferred partners to achieve silver status

The supply chain sustainability school is an initiative which represents a common approach to addressing sustainability throughout our Supply chain.

Once signed up (free of charge) suppliers will also have free access to E-learning modules, self assessments and workshops.

BENEFITS TO YOU INCLUDE:

- ◆ Free access to e-learning
- ◆ Networking opportunities
- ◆ Understand how sustainability will benefit your business
- ◆ Access to sustainability community
