

SHAP ERDF WMHOG RESEARCH INTERIM REPORTS LAUNCH EVENT

27 November 2017

Hosted by the HCA – 5 St Philips Place, Birmingham,

Registration 10am Welcome 10.15 am Summary 1 pm

SHAP research provides the information to support decisionmaking on housing policy and practice that delivers the very best possible value from the resources invested. This event signposts to the opportunities to bid for ERDF to support innovative approaches to changing the way our housing stock is designed, built and managed. In 2017, the West Midlands Housing Officers Group has part funded research into three related issues where there is need, demand and an evidence base that business as usual will not deliver the high quality homes and national housing infrastructure required in the UK. This event launches the interim findings of the SHAP WMHOG task and finish groups so that our wider networks and key UK innovators and leaders can comment and add their own thinking to the debate. The outcomes of the event will be taken forward in further research and the final outputs will be launched on 16 May 2018.
